COLLECTION

MARIANNE

This collection takes its inspiration from Marianne North, the pioneering Victorian painter who travelled the world solo, documenting tropical flora and fauna in an unprecedented and contemporary way. Her work resulted in a library of botanical paintings, which is now on display in Kew Gardens. Profoundly influenced by North's story, the Clarke & Clarke design team has created an exciting new collection of eclectic fabrics and wallpapers.

WILLIAM MORRIS DESIGNS

As well as being a poet, environmentalist and socialist, William Morris (1834-1896) was one of the most prolific designers of any age. As a hero of the Arts & Crafts movement, he authored enduringly popular designs that drew their inspiration directly from nature.

In this collection, Clarke & Clarke celebrates his legacy with a hand-picked selection of his most adored fabric designs.

Unique florals combine with remarkable compositions in a range with over 160 years of heritage. Create your very own Arts & Crafts haven with the William Morris Designs collection.
